THE FOUNDER

MEET SHARITA

It was a tough time for everyone, the world was in the grip of the COVID-19 pandemic, and businesses were shutting down left and right. For Sharita, the founder of Unravel Luxury Candles, it meant closing the doors of her beloved hair salon for two long months. It felt like life as we knew it had been paused. But instead of feeling defeated, Sharita decided to channel her creativity and passion for self-care into something new.

That's when she discovered the art of candle-making. She started experimenting with different scents and ingredients, carefully crafting homemade, vegan candles that would provide her clients with the support and comfort they needed during these challenging times. And to her surprise, her clients loved it! They began requesting a way to bring that same luxurious sensory experience into their homes and spaces.

Inspired by this demand, Sharita decided to take her candle-making to the next level. As a professional hairstylist and trichologist, she was always on a mission to solve problems, lift spirits, and inject beauty wherever she could. So, she put her spin on homemade, gluten-free, and paraben-free candle goodness, embracing an entirely holistic and eco-friendly approach to relaxation with her essential oil-filled luxurious candles. Each candle is crafted with high-quality ingredients, made to perfection in Dallas, Texas, and filled with love.

Today, Unravel Luxury Candles is more than just a business. It's a passion project that allows Sharita to bring joy, relaxation, and beauty to people's lives every day.

Our Mission

We are on a mission to provide people with a moment of tranquility amidst the chaos of everyday life. Unravel Luxury Candles is committed to offering magnificently scented candles that light up the home and ignite the senses, allowing customers to escape their troubles, relax, and breathe in the exquisite fragrances that fill each candle.

Our Vision

We envision a world where people have access to the luxury of beautifully scented candles and where they can take moments to relax and enjoy the peace of mind that comes with the calmness of soft candlelight and aromas. Our ultimate goal is to share the joy of Unravel Luxury Candles with as many people as possible and help them find peace and contentment in their lives.

This is required to ensure orders are not sitting in non-climate control facilities during shipping. All other products that are not affected by temperature will ship Monday-Friday as normal.

Answering your questions

FAQ

WHAT MAKE OUR CANDLES SPECIAL?

Our candles are formulated with a clean & slow burning soy wax blend. All of our candles feature wooden wicks which make a relaxing, crackling sound while lit!

WHY A WOODEN WICK?

- Impressive scent throw
- Eco friendly
- Quality Balsa wood
- Long lasting flame
- Slower burn of fragrance, makes scent last longer
- Wooden wicks provide a natural aroma
- Greater sustainability

WHY SHOULD I TRIM THE WICK?

A longer wick creates a larger flame, which in turn melts the wax faster. If you don't trim the wick before burning the candle, it may start producing soot. Always trim the wick to 1/8 inch before lighting a new or previously burned candle. In addition, burning your candle for 4 hours at a time will ensure the wax melts all the way to the edges without tunneling. If you want to burn your candle longer than 4 hours, extinguish the flame after 4 hours, let the candle cool, then trim the wick and relight.
